

[CIAB10] 10th International Congress on White Architecture

CALL FOR PAPERS

1/3

La Cátedra Blanca of Valencia has scheduled the celebration of the **10th International Congress on White Architecture (10º Congreso Internacional de Arquitectura Blanca, CIAB 10)** on the 23rd, 24th and 25th of March 2022 at the School of Architecture of the Universitat Politècnica of València.

The CIAB10 will be held in a hybrid format, i.e. the speakers and all those who wish to attend will be present, but at the same time it will be possible to follow the congress online.

Each edition of the CIABs includes **conferences** presenting a selection of the best international architecture studios that are working with concrete as the main subject of their projects; and **communications** that not only have an autobiographical character of a built project, but also a historical, critical, theoretical or technological nature, showing the latest developments by companies in the field of concrete.

Therefore, professionals interested in a work or research related to exposed concrete are invited to submit a defined communication within the following fields.

(a) Own experiences in architectural and engineering production in which exposed or coloured white concrete has a special role.

Length: between 750 and 1000 words, not counting the abstract, captions and references. The paper will follow the article structure of the Project: It will narrate the objectives/requirements of the project, the influences, the architectural concept, the development and results of the construction, and the technical characteristics of the concrete used. A maximum of 10 images may be included with the paper, as well and the necessary plans of the project: elevations, floors, sections, and representative structural sections.

(b) Historical or critical studies related to buildings in concrete.

Length: between 2500-3000 words, not including the abstract, captions and references. The text will follow the structure of the scientific article. A maximum of 10 images may be included as part of the paper.

(c) Theoretical or technical studies on exposed or coloured white concrete.

Length: between 2500-3000 words, not counting the summary, captions and references. The paper will follow the structure of the scientific article. A maximum of 10 images may be included as part of the paper.

Note: In the first submission of the paper authors will only send a file in PDF (that will include images and plans) generated from this template, strictly observing all these recommendations. To guarantee the anonymous review process, omit all names in the PDF that may compromise the anonymity of the communication, such as names of authors, institutions (which will be left blank at the beginning of the document in the initial submission of the paper), laboratories, programmes, places, etc.

[CIAB10] 10th International Congress on White Architecture

CALL FOR PAPERS

2/3

Once the paper has been accepted, the technical data of the work will be added (Architects, collaborators, developer, builder, year of project and completion, location, budget, etc.) or of the authors of the scientific article (including their affiliation) and a short Curriculum Vitae in the format defined by the template. Additionally, the author will also attach a supplementary file in JPG format. [300-400 ppp quality and A4 size] and the plans in PDF format [300ppp quality and A4 size]. Images and plans must be free of copyright for publication, or in their case the rights have been paid or negotiated by the author with the corresponding entity.

Important: the personal information related to the metadata of the submission MUST be filled in.

IMPORTANT DATES

- **May 20, 2021** Call for papers
- **October 20, 2021** Deadline for the submission of full paper
- **November 20, 2021** Notification of acceptance of abstracts (maximum deadline)
- **December 20, 2021** Deadline for the submission of full paper, including modifications and English version.
- **February 28, 2022** Deadline of registration
- **March 23, 24 and 25, 2022**, CIAB 10 (pending confirmation of the exact date)

LANGUAGES

English and Spanish

GUIDELINES FOR AUTHORS

First Submission.
Paper in Spanish or English.

Format file: Only one file in PDF.

Paper Structure: The submitted paper must use the CIAB10 template.

Second Submission [after review].

Paper in English or in Spanish and English, incorporating the suggestions of the reviewers. Both versions will be sent in the same Word document and this time they will not incorporate the images, which will be sent as supplementary files.

Format file: Microsoft Word format file.

Paper Structure: The submitted paper must use the CIAB10 template.

Format for supplementary files [photographs, tables or plans]: PDF or JPG.
